"Aim high – Live life to the full"

NC/DM

13th February 2019

On Monday 4th March, Year 6 will be taking part in an architecture workshop to introduce our new topic India.

They will receive a hands-on STEM (Science, Technology, Engineering, and Mathematics) orientated workshop challenge, which will enthral and educate in equal measure. The children will build models, structures and sculptures that will make learning fun and the complex simple. Using nothing more than dowel and rubber bands they will build huge historical structures, using all the aspects of STEM learning.

The children will work individually, in teams and en masse to construct a very large model of the Taj Mhal. During the process they will learn about the different parts of the building and walk through the structure, and courtyard. There will be problem solving, teamwork and a great celebration as they raise the roof up onto 2m high columns.

Therefore, we are asking for a contribution of £3 to be paid by Friday 1st March via the online payment system Agora.

Many thanks.

Yours faithfully,

N Cristian
